

Cecilia Jaime Gallery kindly invites you to

**AROUND LINES**

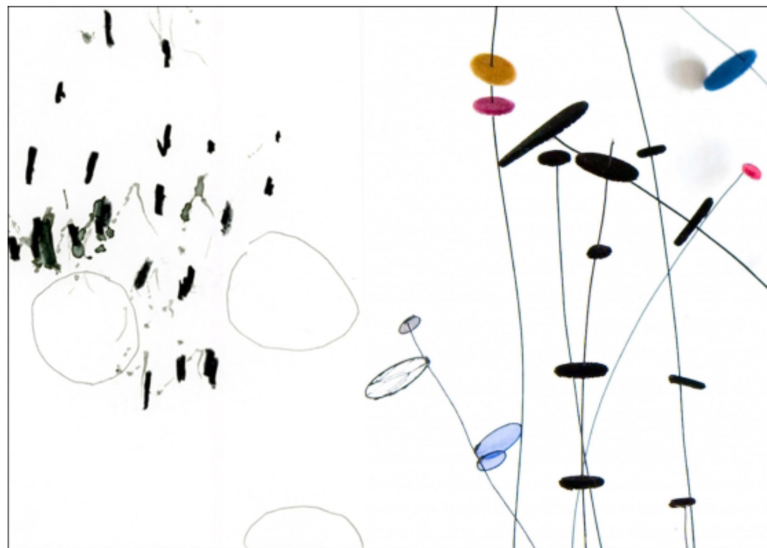

**A DUO EXHIBITION BY HALLVEIG AGUSTSDOTTIR & LUCIA SAMMARCO PENNETIER**

8 February until 8 March 2014

Open from Wednesday - Saturday from 1 - 6 PM or by appointment

Opening on Saturday 8 February at 7 PM

The work of Hallveig Ágústsdóttir and Lucia Sammarco Pennetier may at first sight seem far apart from one another, but shares a deeply rooted interest in a - often literally - sense of rhythm when taking a closer look. While the rather direct drawings and video compositions of Hallveig challenges the fragile installations of Lucia, and vice versa, the common thread is formed by their play of lines.

**HALLVEIG AGUSTSDOTTIR**

Hallveig Ágústsdóttir (1976, Iceland) is a visual artist and sound drawing performer exploring a range of different mediums. In her more recent work, Hallveig is focusing on the movements, gestures and the sounds an artist makes while in the process of creating a drawing. By making use of an interactive audiovisual system, she amplifies the sound of her actions. The improvised communication between artist, computer and musician creates an environment where sound and image combine and conduct each other. What remains is a witness, in the form of a drawing or a video composition, capturing the gesture of drawing, melody and rhythm.

**LUCIA SAMMARCO PENNETIER**

Lucia Sammarco Pennetier (1980, Italy) began her artistic career with the creation of frontier objects - experimental works blending art, design and fashion, resulting in sculptures that could be worn. Through the years, she elaborated a new personal language of three-dimensional compositions in wire and fabric. Geometric elements come together in a dynamic equilibrium created with magnets that generate movement and bring the work to life. Like a tightrope walker, Lucia's work is balanced as much as it is subject to unforeseen influences. Even a slight puff of air can generate an unexpected field of relationship and exchange, an expression of impermanence.
